As seen there, color filters 15 are placed on top of sensors 1 and do not serve to spatially color disperse the light, but rather merely filter out selected colors of the light prior to reaching the sensors 1. Immega fails to teach or suggest spatially color disperse the light, but rather merely filter out selected colors of the light prior to reaching the sensors 1, as commonly included in each of the independent claim 1 and 4, the prior art of record fails to teach either
